WEEK ONE OSHA 10 & CONSTRUCTION MATH & BLUEPRINT READING

- The students had to go through ten hours of OSHA 10 training and take a test to earn their card.
- All the students had to sit through a whole day of Construction Math and learn the basics.
- They also had to learn how to read Construction Blueprints with the BTI instructors.

WEEK ONE

BLACKFOOT REST AREA CEMENT MASONRY

- The students had to listen to 30 minutes of instruction on how to pour the concrete and mix it.
- They also learned how to flatten out the sidewalks after breaking out the old pieces. The students got the chance to learn firsthand alongside the instructor how to pour the cement.
- They got the chance to get hands-on training with smoothing out the cement and making sure it was level. The students also got the chance to make the forms for the sidewalk on this project.

WEEK TWO
**FORKLIFT TRAINING &
CPR/FIRST AID/AED**

THE TERO CLIENTS EARNED THEIR CPR/FIRST AID/AED & FORKLIFT CERTIFICATIONS
